

Authorship Change Form

We have added one author to the paper, Mr. Thom Brade, of the School of GeoSciences, University of Edinburgh (Thom.Brade@ed.ac.uk), who was critical in setting up some of the plots used in the study. He also contributed substantially to the revisions. All co-authors agree that he should be added as an author.

On behalf of all co-authors, thank you in advance for approving this request,
